

EZ-Guide® 500 – Going Beyond Guidance

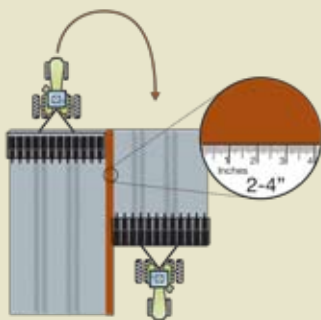

F A C T S H E E T

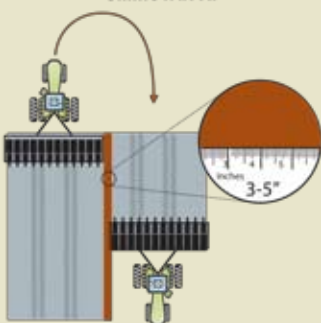

The Ag Leader EZ-Guide 500 features a large, easy-to-read 7-inch color display and built-in lightbar with 31 guidance LEDs that are highly visible, even in bright light. Operators can view real-time coverage maps to see covered area and perform field operations more accurately. The display also provides users with an Overhead View to show where you are in the field and where you have been. The unit supports multiple guidance patterns and also records data from field operations that can be transferred to a PC via a USB flash drive.
